- Contains silicones
- Antistatic
- Lasting gloss
- Dirt repellent
- 360° valve

Physical & chemical data

- Base: Silicone oil with perfume
- Colourname: transparent
- Smell: Citrus
- Surfaces: Dashboard and other plastic parts in the car
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Vapour pressure: 3500/20 bar
- Storage stability: 10 y
- Content: 600 ML

How to use

- Before use, carefully read the directions on the packaging and act accordingly.
- The aerosol should have room temperature. Best processing temperature 5 to 30°C. Before use, shake the aerosol.
- Apply the cockpit spray on a dry, clean cloth and distribute evenly over the surface to be treated.
- Then, polish with a dry cloth until a gloss has been achieved.
- In view of decreased grip, avoid contact with the steering wheel and the control pedals.

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

For any further technical questions call our hotline +31 (0) 561 69 44 00 from Monday to Thursday from 9 h a.m. to 3 h p.m. or on Friday until 12 h p.m.

As of June 10, 2022 – This release replaces all eventually earlier issued versions.
