

## MOTIP Copper Paste

Ord.-no.: 090313

### Technical Information

MOTIP Copper Paste is a high-quality assembly paste based on copper particles, for lubricating parts that are exposed to high temperatures and corrosive influences, such as threaded connections, rolling and plain bearings, brake parts and compressed air tools. MOTIP Copper Paste reduces the friction of moving parts and provides effective protection against corrosion.

#### Quality & properties

- Suitable for temperatures up to +1.500 °C
- Enriched with copper particles
- Excellent adhesion
- Reduces friction of moving parts
- User-friendly
- Good corrosion protection
- Water repellent
- 360 °C application

#### Physical & chemical data

- Base: Viscous mineral oil, copper, inorganic binder, additives.
- Colourname: copper
- Smell: Characteristic
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Flash point: >60 °C
- Relative density: 1.1 g/ml
- Content: 200 ML

#### How to use

- Before use, carefully read the directions on the packaging and act accordingly.
- Clean and degrease the surface before use.
- Do not mix with other greases.
- Assembly paste should be applied sparingly as a thin film using a brush.

#### Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

#### Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

#### Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

For any further technical questions call our hotline +49 (0) 62 66 75-266 from Monday to Thursday from 9 h a.m. to 3 h p.m. or on Friday until 12 h p.m.

**As of June 2, 2023** – This release replaces all eventually earlier issued versions.
