

## MOTIP Alu pressure can

Ord.-no.: V05000

### Technical Information

Refillable alu pressure can to process MOTIP active substances. Minimal pressure 5 bar, maximum pressure 10 bar (compressed air). Suitable for 500 ml active substance.

#### Quality & properties

- Refillable
- Suitable for 500 ml active substance

#### Physical & chemical data

- Colourname: no colour
- Content: 500 ML

#### How to use

- Before use, carefully read the directions on the packaging and act accordingly
- Bleed by pressing the nozzle
- Unscrew the nut
- Remove the combination of the nozzle and the valve
- Fill with a maximum of 500 ml substance. When filling, keep the can straight
- Mount the combination of the nozzle and valve and fasten the nut
- Build up the pressure with compressed air. Minimum pressure 5 bar, maximum pressure 10 bar
- After use, clean the nozzle
- Do not fill basic substances / Do not expose to temperatures above 40°C

#### Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

#### Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

#### Marking/Labeling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

For any further technical questions call our hotline +31 (0) 561 69 44 00 from Monday to Thursday from 9 h a.m. to 3 h p.m. or on Friday until 12 h p.m.

**As of August 18, 2022** – This release replaces all eventually earlier issued versions.
