

MOTIP Silicone Stick

Ord.-no.: 000799, DP0071

Technical Information

Protect rubbers and plastic parts of your car against freezing with MOTIP Silicone Stick. Silicone Stick lubricates and protects plastics or rubber parts of your car. The spray prevents the drying out of rubber parts and creaking and squeaking of plastic parts.

Quality & properties

- Prevents freezing and drying out of rubber parts
- Outstanding mechanical and thermal stability
- Excellent adhesion
- Prevents creaking and squeaking of plastic parts
- Water-repellent

Physical & chemical data

- Base: Polydimethylsiloxane
- Colourname: transparent
- Smell: Characteristic
- Vapour pressure: 43/20 bar
- Flash point: 24-25 °C
- Content: 65 ML

How to use

- Before use, carefully read the directions on the packaging and act accordingly
- Before use, shake the bottle
- Best processing temperature 5 to 30°C.
- Apply silicone stick in a thin layer, equal layer and polish with a soft cloth.
- Optimum lubrication is obtained after evaporation of the solvent (approximately 1 minute).

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labeling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

For any further technical questions call our hotline +31 (0) 561 69 44 00 from Monday to Thursday from 9 h a.m. to 3 h p.m. or on Friday until 12 h p.m.

As of August 17, 2022 – This release replaces all eventually earlier issued versions.
